1. Technical Conditions for Production of Commercial Spots, Sponsor Messages and Teleshopping Intended for Dispatch to FTV Prima Distribution Network

Effective as of 01/01/2016

The following technical conditions are determined for production of spots supplied to FTV Prima:

1. Supplied programs must be delivered via “Prima Delivery” file method system (<http://spoty.prima-net.cz>) in formats MXF and OP1a.
2. The record shall be in high definition (HD) in MPEG HD422 50Mb/s (50i).
3. The video signal shall comply with international recommendation ITU-R BT.709.
4. The audio mix shall respect EBU R128 recommendation, the audio level of the programme shall be normalized to -23 LUFS in the integration measurement mode, the maximum permitted audio modulation level is -1 dBTP. The reference tone with the frequency of 1 kHz shall be recorded at the level of -18 dBFS.
5. The audio signal shall be recorded in STEREO version, whereas the following audio track order organization must be maintained:

A1 = L (left channel)
A2 = R (right channel)

If the signal is in MONO version, the audio signal shall be the same in both channels, A1 and A2. Modulation of A1 and A2 cannot be in counter-phase.
6. The offset between the video and audio cannot be subjectively perceptible and cannot exceed 60 ms, in case of audio skip ahead, or 100 ms in case of audio delay after video.
7. A continuous time code (TC) must be recorded throughout the entire length of the recording.
8. An advertising spot shall include 2 black frames (2f) before the beginning and 2 black frames (2f) at the end of spot.
9. The requested description for spots delivered via file method system must be filled according to the web form of “Prima Delivery” system.
10. During production of a sponsor message, it is necessary to incorporate the relevant FTV Prima template directly into the sponsorship message, in order it is displayed for the entire its duration. If the sponsor is a program sponsor, it is necessary to incorporate the template with the “Sponzor pořadu” subtitle. In case of production of a channel sponsor, it is necessary to incorporate the template with the “Sponzor programu” subtitle and to add the respective sponsors by the required jingle of Prima/Prima COOL/Prima love/Prima ZOOM in the length of 2s, in the version before the sponsor message and after the sponsor message.
11. FTV Prima does not incorporate station ID (logo) into sponsor messages; the ident is already included in the template for production of the sponsor message.

2. Technical Conditions of Advertising Formats for Internet Advertising at Websites Represented by the Company MEDIA CLUB, s. r. o.

General Rules

If not stated, rules apply to all types of advertising formats

- The banner / video or other creatives cannot behave aggressively, cannot disturb the user during work with the page; vulgarisms or other unethical content may not be included.
- The maximum data limits and the correct dimensions according to the ordered position must be observed. If the maximum data size is exceeded, an extra charge of 1% of the base price will be charged for every 1% by which the data size has been exceeded.
- The creative part cannot include any control elements of operating systems and may not look like system dialogues.
- The supporting materials may not anyhow interfere with the page or affect the behaviour of page elements.
- The supporting material may not contain any sounds, except for video banner and video spot.
- For the promotion of multiple brands or subjects, an additional fee of 15% for each brand/subject is charged.
- You can add up to 3 creatives + 3 destination URLs to each booked position, except for HBBTV.
- The Customer is obliged to provide the Supplier with complete supporting materials no later than 3 working days before the scheduled start date of the campaign (banner advertising). In the case of non-standard formats, the submission deadline is 5 working days before the start of the campaign (PR articles, competitions and special projects). In case of supporting materials for production of HbbTV application, the deadline is 10 working days before the launch date of the campaign.
- The supporting materials including tracking codes shall be sent to obchod-online@media-club.cz.

Video Advertising

Videospot

Advertising Format	Dimension	Max. Data Size	Format
Videospot	aspect 16:9 - FullHD, HD	100 MB	.mp4 (h.264), .mpeg
Mobile vertical video	aspect 16:9 - FullHD, HD	2 MB	.mp4 (h.264), .mpeg

- Format: .mp4 (h.264), .mpeg.
- Max. length: according to the media plan
